

# Trakton™

## Traction Treatment for Greasy Floors

**TRAKTON™** is a specialized floor cleaner and degreaser designed for daily use on surfaces contaminated with oils, grease and grime - including kitchen floors, automotive shop floors, restrooms, and other oily or slippery surfaces. Unlike traditional caustic-based alkaline cleaners that generate excessive foam and leave behind a slick residue that builds over time, **TRAKTON™** is a low-foam, caustic-free, non-alkaline cleaner.

**TRAKTON™** quickly emulsifies oils and grease leaving a clean, streak-free surface. By removing oily films, it helps restore traction and reduce slips-and-fall risks. Safe for use on epoxy, vinyl composite tile (VCT), PVC, quarry tile, ceramic tile, terrazzo, concrete and other resilient floors, **TRAKTON™** delivers consistent, reliable cleaning performance in demanding environments.

### DIRECTIONS FOR USE:

Dilute **TRAKTON™** in a mop bucket and apply to the greasy floor or surface using a mop or a soft-bristle brush. Dilution rates vary based on soil conditions. Use the chart below as a general guide.

#### Dilution Chart

| oz/gal of water |        |
|-----------------|--------|
| Light Duty      | 1 to 2 |
| Medium Duty     | 3 to 5 |
| Heavy Duty      | 6 to 8 |

- Commercial Kitchens
- Automotive Shops
- Concrete Floors
- Restrooms
- Any surface prone to oil and grease buildup

### Properties:

Color : Orange  
Fragrance : Citrus

### HMIS Ratings

Health: 2 Flammability: 0  
Reactivity: 0 Personal Protection: B

After application, allow the solution to dwell for 5 - 10 minutes. Scrub thoroughly with a mop or deck brush or an electric scrubber, then rinse the surface with water to remove loosened soil, residue, and remaining grease. Rinse twice if necessary. For large area, use an auto scrubber with a pad recommended by the manufacturer. **DO NOT MIX** with other cleaning products such as bleach, or alkaline cleaners (including degreasers & drain openers), as this may reduce product performance or create unsafe conditions. Refer SDS for safe use and ingredient information.

This product is designed exclusively for industrial and institutional use by trained personnel. This product is sold as is and the manufacturer makes no warranty, express or implied, of merchantability, fitness for a particular purpose or otherwise. To determine if this product is safe to use on a surface, always pre-test the product in an inconspicuous area. Refer to SDS for additional safety information.
